Hot Press (Hydraulic Type)-500KN-400 x 400mm Plate-190mm Stroke

Description

AHP PLASTIK MAKINA

- Hot press for making samples //
- Touch panel //
- Pressure monitoring //
- Pressure adjustment using hydraulic pressure valve //
- Water-cooled heating plates //
- Force capacity 500 KN //
- PLC control panel //
- Cartridge-type heating elements //
- Plate movement speed adjustment //
- Molds will be made according to customer request and will be quoted separately //
- Chiller will be quoted per customer request //
- Temperature up to 300 C //
- Plates of dimension 400*400 mm //
- Stroke of moving platen 190mm
