

Non Instrumented Impact Tester-ISO 6603-1-MethodA-2m-Full Weights

Description

- Touch display //
- Automatic height adjustment //
- Anti-rebound system for restricting multi-impacts //
- Clamp for sample as per ISO6603-1 //
- Pneumatic clamp type //
- Sample of square size 60mm, Disk diameter 140mm //
- Striker head of hemispherical 20mm diameter //
- Striker hardness more than 54HRC //
- support ring of inside diameter 40 and 100 mm //
- Base weight is more than 180kg as per standard //
- Clamping force is more than 3KN //
- Small sample is square 40mm or 40mm diameter disk 2mm thickness //
- Bigger sample is 140mm square or 140mm diameter disk with thickness of 4mm //
- Striker head can be changed easily //
- Weights 500, 800, 1000, 1250, 1600, 2000, 2500, 3200 g //
- Two types of carrier for different weight ranges //
- Including 10mm striker
