

Tensile Tester with Video Extensometer (Strain Hardening Tester for Polymers)

Description

- Two column tensile tester
- Hot air cabin
- Video extensometer
- Computer controlled
- USB port for computer
- Software included
- Ball screw
- Timing belt force transmission
- 100kgf loadcell
- 10KN force capacity
- Software functions for calculation of strain hardening modulus according to ISO 18488
- Report to MS office Excel
